PASSWORD PRACTICES

01 UNIQUE

Do not reuse passwords. Have unique passwords for all of your accounts

02 STRONG

Make your passwords strong by ensuring that they are long and contain unique characters

03 STORE

Consider storing your passwords in a password manager application.

04 CHANGE

Change your password if you suspect there is suspicious activity going on.

05 MFA

Enabling MFA (Multi-Factor Authentication) adds an additional layer of security to your accounts.

06 SECRET

Under no circumstances should you share your passwords with anyone.
